

# C&M D2K™ RIGID CENTRALIZERS

*The most economical centralizers available*

C&M's Patented D2K system consists of collars and straps designed to form over 100 centralizer variations. Universal strap end tabs fit all collars. Collars can be used with D2K HDPP straps, PVC straps, or PVC solid round to meet your job requirements. Numerous advantages and savings over PVC centralizers. Same day shipping available.

Accommodates: Single Bar #6 - #20; Multi-Bar/Strand Anchors; Encapsulated (DCP) Anchors; Steel or Plastic Pipe Applications. Ideal for Soil Nails, Rock/Soil Anchors, Micro-Piles, Auger-Cast Piles.

HDPP straps in 1/4" increments

HDPP before & after assembly, 8" o.d.

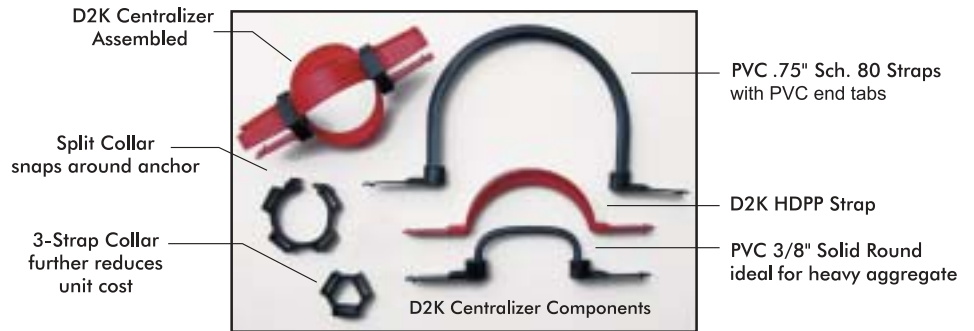

PVC before & after assembly, 14" o.d.

PVC collar housing assembly

Qtr. collars w/ strap retainers, 10" duct

## ADVANTAGES:

- Factory Assembled - Ready to Install (also available unassembled for significant savings)
- Split end collars available to snap and lock at any point of anchor
- Arch strap design offers maximum strength
- Quickly fastens with tie wire, tape or zip ties
- Protruding end tabs for quick attachment
- Flexible tabs accommodate various bar diameters
- Wide strap surface contact for ease of anchor installation
- Collar design allows ample space for grout tube or trimmie
- Corrosion-Resistant - No nuts or bolts required
- Won't damage specialty coatings
- Collar & strap design improves grout flow
- Lightweight & durable - Easy on-site handling
- HDPP Conforms to ASTM D-4101
- PVC Conforms to ASTM D-1785 & D-2241
